SUMMARY

Enthusiastic about full-stack web development and driven to acquire new technologies. Seeking to contribute my skills and determination to a dynamic organization that fosters growth and innovation.

EXPERIENCE

Senior Software Engineer

LTI - Larsen & Toubro Infotech

October 2022 - Present

- Developed advanced ReactJS applications for frontend.
- Orchestrated seamless data communication through extensive utilization of REST APIs.
- Utilized Spring Boot for building robust backend systems.
- Deployed applications on Microsoft Azure for scalability.
- Contributed to high-quality, performance-driven solutions.

Full-stack Developer Intern

RunShaw Technologies Pvt Ltd

August 2021 - October 2021

- Built responsive landing pages using ReactJS and NodeJS.
- Developed robust backend systems with REST APIs and MySQL.
- Collaborated with the team to deliver innovative solutions, resolve technical challenges, and optimize performance.

PROJECTS

Student-Forum

October 2021 - December 2021

- Created a full-stack web application for students to post and interact with others about the issues and concerns in their campus and resources for learning new technology, and roadmaps.
- Built a NextJS frontend with a NodeJS-Express backend, utilizing MongoDB for the database and Firebase for authentication.

ShadowSeries

December 2020 - January 2021

- An Android app that allows users to search and download TV Shows and implemented a RESTful API to fetch online data and improved user experience by adding a "Search" feature.
- Used CheerioJS for scrapping data and building RESTful API using NodeJS and used Flutter for building android app.

Online Clothing Store

July 2020 - September 2020

- Built an e-commerce website for a clothing store with customer login (Firebase), online payment (Stripe), product management (MySQL), and product search (Node.js and Express.js) feature.

EDUCATION

B.E, Computer Science

CMR Institute Of Technology • Bengaluru • 2022 • 8.36

CERTIFICATIONS

CKAD: Certified Kubernetes Application Developer

The Linux Foundation • 2023

Microsoft Certified: DevOps Engineer Expert & Azure Developer Associate

Microsoft • 2022

SKILLS

Tools & Technologies: Kubernetes, Spring Boot, ReactJS, NodeJS, REST APIs, Java, Microsoft Azure, MySQL, Web Scraping
